The AI + Human Advantage:

TRANSFORMING AI FROM A BASIC TOOL TO A TRUE THINKING PARTNER

Check the behaviors that describe how you typically use AI.

LEVEL 1 THE TOOL You consume. AI delivers.

- ☐ I ask AI a question and accept the first response
- ☐ I copy/paste AI outputs without editing
- ☐ I use AI mainly to save time on tasks I already know how to do
- ☐ I rarely give AI follow-up prompts

Human skill at work:

Few. AI does the thinking.

LEVEL 2 THE PERSONALIZER You shape. AI adapts.

- ☐ I revise my prompts to get better outputs
- ☐ I give AI constraints (tone, length, audience)
- ☐ I edit AI responses before using them
- ☐ I iterate until the output fits my context

Human skill at work:

Curiosity. You judge quality.

LEVEL 3 THE SENSEMAKER You interpret. AI organizes.

- ☐ I give AI multiple inputs and ask it to find patterns
- ☐ I use AI to structure messy information
- ☐ I ask AI to explain connections I might be missing
- ☐ I use AI to help me understand complex topics

Human skill at work:

Critical Thinking. You make meaning from complexity.

LEVEL 4 THE COLLABORATOR You decide. AI advises.

- ☐ I assign AI specific roles (coach, critic, advisor)
- ☐ I ask AI to generate multiple options, then I choose
- ☐ I use AI to stress-test my ideas
- ☐ I weigh AI suggestions against my own judgment

Human skill at work:

Problem-Solving. You own the decision.

LEVEL 5 THE THINKING PARTNER You grow. AI accelerates.

- ☐ I use AI to reflect on my own thinking patterns
- ☐ I ask AI to challenge my assumptions over time
- ☐ I use AI to track progress and identify growth areas
- ☐ I co-develop ideas with AI across multiple sessions

Human skill at work:

Metacognition. You evolve your practice.

YOUR RESULTS

Company

ProSolve.com

ProSolve Offerings

One ecosystem. One shared outcome.

ProSolve partners with districts to define, measure, and develop the human skills that matter most.

1

STRATEGIC DIRECTION:

Build clarity and alignment through thought leadership, Portrait of a Graduate development, skill progressions, and shared language. Supported by professional learning.

2

ASSESSMENT & REPORTING:

Measure human skills through the first benchmark assessment. Objective data aligned to SEL, the 4Cs, and Portrait of a Graduate. Used for MTSS and accountability.

3

CURRICULUM & PROGRAMS:

Grow human skills through easy-to-implement, practice-based experiences across the school day, enrichment, and SEL instruction.

Together, ProSolve helps districts move from vision to evidence to measurable growth, building systems that make human skills visible, actionable, and impactful.
