QUEST

Game-Based Experiential Learning

ProSolve
Learning. Experienced.

ENGAGE

students differently.

Unlike traditional instruction, **QUEST** combines elements of what students love most—movies, games, humor, and socializing—to create **experiential learning** that drives excitement, engagement and outcomes.

Immerse your students in collaborative problem-solving while they empathize, negotiate, compromise, strategize, and **play** their way through the game of QUEST.

Top Reasons to Play

When students are invested in relevant and authentic experiences, they are more likely to develop lifelong skills and meaningful connections with others. This paves the way for both academic success and personal growth.

1 Engage Authentically

Foster curiosity and inclusivity through compelling storylines and diverse characters.

2 Transfer Skills

Cultivate critical thinking and SEL skills through dynamic, team-based problem-solving.

3 Reimagine Learning

Effortlessly introduce experiential learning with flexible, all-inclusive materials.

Transform the traditional with **QUEST.**

K-2

Interactive Episodes

A dynamic format that sparks curiosity and retains student interest.

QUEST's story unfolds over 20 hours of immersive content, combining animation and hands-on activities. Students actively participate as teammates alongside a cast of diverse and relatable characters.

Team-Based Play

Collaborative gameplay builds skills, friendships, creativity, leadership, and lifelong success.

In QUEST, collaborative problem-solving is the name of the game. Learners lead each other across game phases and leverage the unique strengths of every teammate to succeed.

Aligned to Academics

QUEST's evidence-based curriculum ensures students not only meet but exceed expectations in personal growth and core academic skills. Authentic engagement through collaborative problem solving promotes practical application of knowledge.

- ✓ CASEL Competencies
- ✓ ELA Standards
- ✓ Math and Science Applications

Empowered Educators

Our partnership commitment ensures educators feel confident and prepared, leading to more effective teaching and better student outcomes.

QUEST ignites educators' passion for learning with dynamic training and rich resources.

Enjoy upfront training, ongoing coaching and online support for seamless and impactful program success.

Fun Facilitation

Compelling Stories

The QUEST experience **elevates both learners and educators** by fostering an environment of creativity, productive struggle, connection and belonging.

What's Included?

Materials vary by grade level

QUEST Base Kit

Every Base Kit is equipped with tactile puzzles and challenges that students use to advance QUEST's plot while practicing key academic skills.

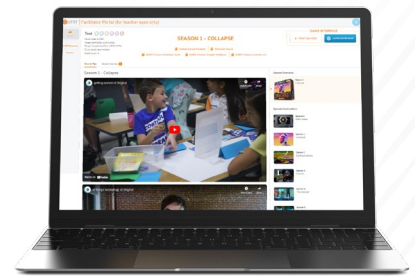

- ✓ 20+ hours of content
- ✓ All-inclusive materials

Student Resources

Students receive consumable supplies and exclusive take-home materials, enhancing both their learning journey and team identity.

- ✓ Home-school connections
- ✓ Mascot-themed gear

Facilitator Portal

A web-based platform holds QUEST's scaffolded digital curriculum, videos, and supplemental resources. It includes reporting and progress-monitoring tools.

- ✓ Digital game code
- ✓ Video and tutorial library

Active Engagement

Connected Classrooms

Create a lasting **IMPACT.**

QUEST creates powerful outcomes, driving enhanced learning, stronger problem-solving, a deep sense of belonging, improved relationship skills, and significant SEL growth, all while being incredibly fun and captivating.

Impact Across the 4Cs

Teachers reported significantly greater learning in the 4Cs when compared to traditional teaching methods.

87% More Collaboration

79% More Creativity

94% More Critical Thinking

85% More Communication

“

“The QUEST learning experience has been such a refreshing change from the standard curriculum. It allows the students to not only explore the set avenues they have around them, but also allows them to be innovative in how they navigate those challenges.”

Jason Sanders
 Director of Instructional Technology
 Northwest Independent School District

“

“We serve students that are emergent bilingual. Being able to practice language with their peers is the most authentic way to continue to develop that language....QUEST activities really gives them a sense of deeper learning because they have to utilize all of their academic skills to run through the simulation.”

Dr. Mary Grace
 Asst. Superintendent of Education Services
 Anaheim Elementary School District

“

“Their ability to collaborate, and the critical thinking skills, those are lifelong learning skills that need to develop. What QUEST does is, it allows that to happen.”

Kathy Mytton
 Manager; Curriculum, Instruction &
 Professional Learning
 Fresno Unified School District

“

“I really like working as a group because we get to work together to solve these problems, and everyone has these different skills they can use.”

Aidan
 5th Grader
 Mt. Diablo Unified School District
