

ProSolve Alignment to Texas ACE

ProSolve Alignment to Texas ACE

At ProSolve, we believe in shaping the next generation of problem-solvers by preparing them for the workforce.

We create student-centered enrichment programs that enable educators to tailor the program to fit the various needs of their students.

- ✓ High Quality enrichment activity designed to enhance school day academics
- ✓ Activities enhance post-secondary readiness and workforce preparation
- ✓ Encourage student participation and attendance
- ✓ Academically aligned to STAAR and overall GPA increase
- ✓ Support SEL development
- ✓ Promote Student Choice
- ✓ Parent/community outreach

**Engaging and
Interactive Programs**

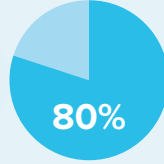

TEKS Aligned

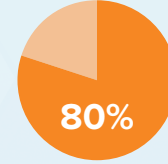

Why choose ProSolve?

of students reported collaboration and communication with peers is useful

of students were in attendance during their summer programs thanks to QUEST

of students believe they increase their ability to solve problems by playing QUEST

With QUEST, students are immersed in an engaging storyline where they are challenged to use their inquiry, observation, and problem solving skills with hands-on immersive experiences. This enrichment program provides a real-world simulation that provides multiple opportunities for learners to think critically, build teamwork and effectively communicate. QUEST offers a unique opportunity for learners to practice and apply skills that transfer across the academic school day.

INTELLECTUAL CHALLENGES

QUEST engages students in complex problem solving adventures that challenge their intellect with a variety of fun and engaging puzzles.

CREATIVE EXPRESSION

For artistic minds, QUEST Creators provides the perfect canvas to unleash creativity with a project-based, tangible output to present to an audience.

COLLABORATIVE CRITICAL THINKING

QUEST offers many opportunities for learners to enhance their peer-to-peer collaboration and communication skills through problem solving and analytical activities.

Learning, Experienced.
